NON-BINDING ESTIMATED COST OF SERVICES

SHIPPERS GENERAL INFORMATION GUIDE provided as prescribed by the Michigan State Police, Commercial Vehicle Enforcement Division (CVED)

IMPORTANT NOTICE

This estimate covers only the articles and services listed. It is not a warranty or representation that the actual charges will not exceed the amount of the estimate. Common carriers are required by law to collect transportation and other service charges computed on the basis of rates shown in their lawfully published tariffs, regardless of prior rate quotations or estimates made by the carrier or its agents;. Transportation charges are based upon the weight of the goods transported, and such charges may not generally be prior to the time the goods are loaded on the van and weighed.

No guarantee can be made as to the specific dates of pickup or delivery of your shipment, unless you make special arrangements with the carrier for expedited service, for which an additional charge will normally be made.

At time of delivery of a collect on delivery shipment, except when such shipment is delivered to a warehouse for storage at the request of the shipper, on which an estimate to the approximate costs have been furnished by the carrier, the shipper may request delivery of the shipment upon payment, in a form acceptable to the carrier, of an amount not exceeding 110 percent of the estimate charges. The carrier shall, upon request of the shipper and a promise to pay the balance, relinquish possession of the shipment upon payment of not more than 110 percent of the estimate charges for a period of 30 days following the date of delivery. After 30 days, an interest rate of one (1) percent, per month, (annual percentage rate twelve (12) percent) or fraction thereof shall apply on the unpaid balance. Changes will be no higher than the actual charges determined from the applicable tariffs.
